

FCAAP 05-07 Staff Contacts

FCAAP staff share the commitment to providing technical assistance to recipients through a partnership approach. This concept applies to prospective applicants. By speaking with applicants directly on their individual projects, staff gain a better understanding of the intended project and can field questions during the evaluation process. **We strongly encourage you to contact our FCAAP staff whenever we can provide assistance on flood related issues** - from pre-application stage to project completion; from technical to grant administrative questions.
